Opis študijného programu

Názov vysokej školy:	Trnavská univerzita v Trnave
Sídlo vysokej školy:	Hornopotočná 23, 918 43 Trnava
Identifikačné číslo vysokej školy:	318 25 249
Názov fakulty:	Filozofická
Sídlo fakulty:	Hornopotočná 23, 918 43 Trnava

Orgán vysokej školy na schvaľovanie študijného programu:	Council for Internal Quality Assessment of Higher Education
Dátum schválenia študijného programu alebo úpravy študijného programu:	24.2.2022
Dátum ostatnej zmeny opisu študijného programu:	
Odkaz na výsledky ostatného periodického hodnotenia študijného programu vysokou školou:	
Odkaz na hodnotiacu správu k žiadosti o akreditáciu študijného programu podľa § 30 zákona č. 269/2018 Z. z.:	

1. Základné údaje o študijnom programe	
Názov študijného programu a číslo podľa registra študijných programov:	Psychology, 183348, UIPŠ kód: 7715V00
Stupeň vysokoškolského štúdia a ISCED-F kód stupňa vzdelávania:	III. degree, ISCED-F code of education degree: 864
Miesto/-a uskutočňovania študijného programu:	Hornopotočná 23, 918 43 Trnava
Názov a číslo študijného odboru, v ktorom sa absolvovaním študijného programu získa vysokoškolské vzdelanie, alebo kombinácia dvoch študijných odborov, v ktorých sa	32. Psychology, ISCED-F code of study field 0313

absolvovaním študijného programu získa vysokoškolské vzdelanie, ISCED-F kódy odboru/ odborov:	
Typ študijného programu: akademicky orientovaný, profesijne orientovaný; prekladateľský, prekladateľský kombinačný (s uvedením aprobácií); učiteľský, učiteľský kombinačný študijný program (s uvedením aprobácií); umelecký, inžiniersky, doktorský, príprava na výkon regulovaného povolania, spoločný študijný program, interdisciplinárne štúdiá.	Academically oriented
Udeľovaný akademický titul:	PhD.
Forma štúdia:	full-time
Pri spoločných študijných programoch spolupracujúce vysoké školy a vymedzenie, ktoré študijné povinnosti plní študent na ktorej vysokej škole (§ 54a zákona o vysokých školách):	
Jazyk alebo jazyky, v ktorých sa študijný program uskutočňuje:	Slovak
Štandardná dĺžka štúdia vyjadrená v akademických rokoch:	3
Kapacita študijného programu:	
- plánovaný počet študentov	9
- skutočný počet uchádzačov	15
- skutočný počet študentov.	7

2. Profil absolventa a ciele vzdelávania	
Ciele vzdelávania študijného programu - schopnosti študenta v čase ukončenia študijného programu a hlavné výstupy vzdelávania:	The graduate of the doctoral study can acquire the latest knowledge from the given field, to expand the scope of knowledge through own research activity and to apply it in psychological practice. The graduate acquires the ability to analyze psychological phenomena with a high level of abstract thinking, associated with the ability to penetrate from the phenomenon of psychic reality to its essence,

	that is to reveal the psychological mechanisms of the researched issue. In terms of the expected application in his profession, he focuses mainly on the scientific career, as an employee of research institutes or member of scientific research teams; university teacher of psychological disciplines; creative expert.
	The graduate masters and is able choose specific scientific methods of basic and applied research in the field of psychology. The graduate has in-depth professional knowledge of specific areas of the field of study, which serves as a basis for conducting research and development and creating new knowledge in the field of psychology. The graduate is able to formulate new hypotheses and strategies for further research and development of psychology. The graduate applies own findings of theoretical analysis and comprehensive scientific research in solving problems in specific areas of psychology.
	Based on own outputs and findings, the graduate is able to design, verify and implement new research procedures. The graduate is characterized by independent, critical and analytical thinking, which he applies in changing conditions. The graduate independently presents the results of research and development to the local and international professional community. The graduate considers social, scientific and ethical aspects when formulating research intentions and interpreting research results.
Povolanie, na výkon ktorých je absolvent v čase absolvovania štúdia pripravený a potenciál študijného programu z pohľadu uplatnenia absolventov:	Academic staff in the field of psychology, university teacher in the field of psychology, researcher in the field of psychology
Relevantné externé zainteresované strany, ktoré poskytli vyjadrenie alebo súhlasné stanovisko k súladu získanej kvalifikácie so sektorovo-špecifickými požiadavkami na výkon povolania:	Representatives of research partners participated in the adjustment of the study program: prof. Viera Bačová (Institute of Experimental Psychology, Centre of Social and Psychological Sciences, Slovak Academy of Science) and doc. Eva Naništová, CSc. (faculty of psychology, Paneuropean university, Slovakia). Their feedback is presented in appendices. External members of the RVHK Trnava University in Trnava, who work in the field of psychology, also gave a favorable opinion on the conformity of the acquired qualification.

3. Uplatniteľnosť

Hodnotenie uplatniteľnosti absolventov študijného programu:	Due to the low number of graduates, the www.uplatnenie.sk portal does not count the employment of doctoral graduates at the Faculty of Arts, Trnava University, but several recent graduates continue their academic careers. For the last 4 years (2017-2021), 9 doctoral student defended their thesis, 4 of them continue their academic careers (Záhorcová, Kohút, Tomanová Čergeťová, Kohútová), and others work in various positions in the health care and counseling system.
Úspešní absolventi študijného programu:	The graduates of doctoral study working at foreign academic universities: Ján Klimas, University of British Columbia, Kanada; Peter Groepel, University of Vienna, Rakúsko; Mgr. Alexandra Slobodníková Čmáriková, PhD., Masarykova Univerzita, Česká republika
Hodnotenie kvality študijného programu zamestnávateľmi (spätná väzba):	A university teacher PhDr. Eva Ballová Mikušková (Constantine the Philosopher University in Nitra) participated in the adjustment of the study program on behalf of the employers. Her feedback is presented in appendices.

4. Štruktúra a obsah študijného program	
Pravidlá na utváranie študijných plánov v študijnom programe:	Internal quality assurance system of higher education at the University of Trnava in Trnava: https://www.truni.sk/sites/default/files/rektor/vnutorny-system-kvality-tu_schvaleny-vr-tu_november-2021_0.pdf Rules for creating, editing, approving and evaluating the quality of study programs at Trnava University in Trnava: https://www.truni.sk/sites/default/files/rektor/studijne-programy_pravidla-tu.pdf
Odporúčaný študijný plán	OŠP_Psychologia_PhD.
Počet kreditov, ktorého dosiahnutie je podmienkou riadneho skončenia štúdia a ďalšie podmienky, ktoré musí študent splniť v priebehu štúdia študijného programu a na jeho riadne skončenie, vrátane	180
Podmienky pripustenia na štátne skúšky:	Successful completion of all mandatory subjects, fulfilling of minimal requirements of the optional subjects, and obtaining the total of 150 credits before the defense of dissertation thesis.
Pravidlá na opakovanie štúdia:	The student can reapply for study after unsuccessful completion.
Pravidlá na predĺženie a prerušenie štúdia:	The rules are set in the study regulations of the university and faculty: https://www.truni.sk/sites/default/files/rektor/studijny_poriadok_tu_final_web_1.pdf http://ff.truni.sk/studijny-poriadok-filozofickej-fakulty-trnavskej-univerzity-v-trnave
Podmienky absolvovania jednotlivých častí študijného programu a postup študenta v študijnom programe v štruktúre:	
- počet kreditov za povinné predmety potrebných na riadne skončenie štúdia/ ukončenie časti	150
- počet kreditov za povinne voliteľné predmety potrebných na riadne skončenie štúdia/ ukončenie časti štúdia,	30
- počet kreditov za výberové predmety potrebných na riadne skončenie štúdia/ ukončenie časti štúdia,	0
- počet kreditov potrebných na skončenie štúdia/ukončenie časti štúdia za spoločný základ a za príslušnú aprobáciu, ak ide o učiteľský	180

kombinačný študijný program, alebo prekladateľský kombinačný študijný program,	
- počet kreditov za záverečnú prácu a obhajobu záverečnej práce potrebných na riadne skončenie štúdia,	30
- počet kreditov za odbornú prax potrebných na riadne skončenie štúdia/ukončenie časti štúdia,	0
- počet kreditov potrebných na riadne skončenie štúdia/ ukončenie časti štúdia za projektovú prácu s uvedením príslušných predmetov v inžinierskych študijných programoch,	Not applicable
- počet kreditov potrebných na riadne skončenie štúdia/ ukončenie časti štúdia za umelecké výkony okrem záverečnej práce v umeleckých študijných programoch.	Not applicable
Pravidlá pre overovanie výstupov vzdelávania a hodnotenie študentov a možnosti opravných postupov voči tomuto hodnoteniu:	Conditions and rules for the successful course of study and its completion, conditions for passing state exams, as well as other conditions and rules for solving situations related to the study are defined in the study regulations of the university and faculty: https://www.truni.sk/sites/default/files/rektor/studijny_poriadok_tu_final_web_1.pdf http://ff.truni.sk/studijny-poriadok-filozofickej-fakulty-trnavskej-univerzity-v-trnave
Podmienky uznávania štúdia, alebo časti štúdia:	The conditions and rules for the recognition of the results of previous studies are defined in the study regulations of the university and faculty: https://www.truni.sk/sites/default/files/rektor/studijny_poriadok_tu_final_web_1.pdf http://ff.truni.sk/studijny-poriadok-filozofickej-fakulty-trnavskej-univerzity-v-trnave
Zoznam tém záverečných prác študijného programu:	The list of theses is published in the Central Registry of Theses and Dissertations. Code of department: 101150.
Pravidlá pri zadávaní, spracovaní, oponovaní, obhajobe a hodnotení záverečných prác v študijnom programe:	The rules for the assignment, reviewing, defense and evaluation of final theses are defined in the study regulations of the university and faculties: https://www.truni.sk/sites/default/files/rektor/studijny_poriadok_tu_final_web_1.pdf http://ff.truni.sk/studijny-poriadok-filozofickej-fakulty-trnavskej-univerzity-v-trnave

	The rules for processing the final thesis are included in Smernica rektora Trnavskej univerzity v Trnave č. 20/2021 o bibliografickej registrácii, kontrole originality, sprístupňovaní, uchovávaní a základných náležitostiach záverečných, rigoróznych a habilitačných prác https://www.truni.sk/sites/default/files/rektor/smernica_o-zaverecnych-pracach-20_2021.pdf
Možnosti a postupy účasti na mobilitách študentov:	The possibilities and conditions of participation in mobilities are defined in SMERNICA rektora TU č.2/2020 o realizácii programu ERASMUS+ na TU. https://www.truni.sk/sites/default/files/zo/smernica_c.2_2020_o_realizacii_programu_erasmus.pdf Univerzita sa v roku 2016 stala držiteľom ECTS a DS Label, aj z toho dôvodu sú študentom po návrate z mobilít uznávané všetky prinesené kredity, či už ako náhrada za predmety študijného programu, pokiaľ k nim existuje ekvivalent alebo ako kredity za výberové predmety, čo stanovuje študijný poriadok univerzity, aj fakulty: The university became the holder of the ECTS and DS Label in 2016. For this reason, all the credits are accepted for the returning students. https://www.truni.sk/sites/default/files/rektor/studijny_poriadok_tu_final_web_1.pdf http://ff.truni.sk/studijny-poriadok-filozofickej-fakulty-trnavskej-univerzity-v-trnave
Pravidlá dodržiavania akademickej etiky a vyvodzovania dôsledkov:	The Ethics Committee discusses complaints related to the violation of the Code of Ethics of the University of Trnava in Trnava, as well as requests for assessment of the ethical aspects of research and other projects. Ethical codex of the University of Trnava in Trnava, Rector's decree n. 3/2015 https://www.truni.sk/eticka-komisia Rules of Procedure of the Ethics Committee of University of Trnava in Trnava: https://www.truni.sk/sites/default/files/rektor/rokovaci_poriadok_etickej_komisie.pdf The Disciplinary Code of the University of Trnava in Trnava for students regulates the position and activities of the Disciplinary Commission of the University of Trnava in Trnava for students and the manner of discussing disciplinary offenses and imposing disciplinary measures. The Disciplinary Code of the University of Trnava in Trnava for students from June 27th, 2013: https://www.truni.sk/sites/default/files/rektor/disciplinarny_poriadok_tu_final_web.pdf

Postupy aplikovateľné pre študentov so špeciálnymi potrebami:	The university provides full-bodied study for students with special needs by creating appropriate adaptations and support services. The university coordinator together with the faculty coordinators initiate the following activities: • identification of students with special needs, • providing information and counseling for students with special needs, • creating suitable conditions for using the services of all parts of the Student Support Center (psychological and legal counseling, sports activities), • education of teachers, staff and students of the University of Trnava in order to gain the right approach to students with special needs, • cooperation with the study departments of the faculties in connection with the admission procedure for students with special needs, • provision of priority accommodation for students with special needs in barrier-free areas, • establishing contacts with other organizations that are helpful for students, • provision of compensatory aids (reading magnifiers, positioning couch, hearing aids, etc.). The faculty coordinator for students with special needs is: Mgr. Iveta Schusterová, PhD., iveta.schusterova@truni.sk. All processes of obtaining and using status are governed by the Rector's directive: https://www.truni.sk/sites/default/files/rektor/smernica_rektora_c._17_2013_o_ podpore_studentov_a_uchadzacov_o_studium_so_specifickymi_potrebami.pdf More information on helping and supporting students with special needs is available at: https://www.truni.sk/centrum-podpory-studentov Lectures for students with special needs: http://ff.truni.sk/aktuality/ako-zvladat-narocne-obdobia-ziskat-odolnost, http://ff.truni.sk/aktuality/zvladanie-napatia-stresu-studentov-so-specifickymi-potrebami-pri-distancnej-vyucbe
Postupy podávania podnetov a odvolaní zo strany študenta:	In case of suggestions and appeals related to the study, evaluation of study results, the student has the opportunity to submit a written complaint / request to the vice dean for pedagogical activities. In case of interest of commission exam, the procedure is in accordance with the study regulations. http://ff.truni.sk/studijny-poriadok-filozofickej-fakulty-trnavskej-univerzity-v-trnave

8. Priestorové, materiálne a technické zabezpečenie študijného programu a podpora	
Zoznam a charakteristika učební študijného programu a ich technického vybavenia s priradením k výstupom vzdelávania a predmetu (laboratóriá, projektové a umelecké štúdiá, ateliéry, dielne, tlmočnícke kabíny, kliniky, kňazské semináre, vedecké a technologické parky, technologické inkubátory, školské podniky, strediská praxe, cvičné školy, učebno-výcvikové zariadenia, športové haly, plavárne, športoviská).	The Faculty of Arts of the University of Trnava in Trnava has the following rooms on Hornopotočná Street in the building of the faculty headquarters for the needs of securing the study program: 1 lecture theatre with capacity of 126 seats 1 lecture theatre with capacity of 96 seats 5 lecture halls with capacity ranging from 52 to 90 seats 5 lecture halls with capacity ranging from 52 to 90 seats 12 seminary halls with capacity ranging from 20 to 40 seats Halls are equipped with presentation technology (data projector, screen, notebook, TV, interactive table) The Department of Psychology has a research laboratory with comprehensive equipment that allows to monitor the electrical activity of the brain (professional 28-channel EEG device and portable 1-channel EEG device), measure the physiological reactions of the body such as. pulse frequency and its variability (HRV), skin-galvanic reaction (SCR, SCL) and electromyography (EMG). Eyetrackers (infrared eye cameras) allow to map with high accuracy (0.5 degrees) and high time resolution (up to 150 Hz) what place you look at - we can monitor differences in focus and detect conscious and automated / unconscious responses. The instrumentation includes hardware and software for biofeedback. The laboratory enables the implementation of teaching and research in the field of psychology in international quality. Instrumentation is used for teaching at all three levels of study in the field of psychology, especially in the subjects General Psychology 1 and 2, Neurophysiology, Clinical Psychology, Instrumental Techniques in Psychological Research, Current Issues in Cognitive Psychology, etc. The Department of Psychology has an extensive library of psychodiagnostic materials and tests and Slovak, Czech and English, which are used for teaching at all three levels of study in the field of psychology in teaching subjects Psychometry, Psychodiagnostics of adults 1 and 2, Psychodiagnostics of children and youth 1 and 2, Clinical psychology 1 and 2., The department has a license for computer diagnostic and rehabilitation software NEUROP-2 and NEUROP-3, which in addition to research (diagnostics of cognitive processes) is also used in the pedagogical process to demonstrate testing of cognitive functions and neuropsychological rehabilitation. We use a multimedia room, which is equipped with 16 computers containing SPSS statistical program licenses, to teach statistical methods and analyze psychological data. There are also licenses for specialized software used for research purposes (data collection, data analysis) SPSS module AMOS enabling structural equation modeling. Free statistical software Jamovi is also installed on all computers. Hardware and software equipment is used for teaching at all three levels of study in the field of psychology, especially for teaching the subjects Statistics 1 and 2, Analysis of psychological data 1 and 2, Psychometry, Current issues in psychometry, Advanced methods of statistical analysis in psychology, Methods for measurement invariance testing, Qualitative data analysis.

Charakteristika informačného zabezpečenia študijného programu (prístup k študijnej literatúre podľa informačných listov predmetov), prístup k informačným databázam a ďalším informačným zdrojom, informačným technológiám a podobne).	The University Library of Trnava University is the central library of Trnava University (TU). It provides professional library and information activities, preserves and bibliographically registers qualifications, bibliographically registers the publishing activities of teachers, researchers and doctoral students of TU, provides library and information services to students, teachers and employees of TU as well as the professional public. It organizes professional events and provides information education. It develops relations with domestic and foreign partners, especially through the exchange of documents. Mutual relations between the library and its users are regulated by the Library and Lending Regulations of the University Library of the TU. The mission, basic tasks and organizational structure are defined by the Organizational Rules of the University Library TU. The profile of the library corresponds to the focus of the study fields of the University of Trnava. The main focus is on library units in the field of social sciences, humanities and natural sciences. Print library units complement electronic information sources, accessible on the basis of TU IP addresses. The Faculty of Arts and Philosophy of the TU in Trnava publishes study literature (scripts and textbooks) for students in both printed and electronic versions. A lot of materials are also published in MOODLE courses. This greatly facilitates their accessibility for students. The university library also provides remote access to information resources via the RemoteApp application (https://www.truni.sk/vzdialeny-pristup-k-elektronickym-informacnym-zdrojom). Within the University Library, students and teachers have secured access to the following information databases: - **Infogate** Union Catalog (https://www.infogate.sk/?seo=InfoGate-Hlavn%C3%A1-str%C3%A1nka&fn=IGIndexChildWKAQF), a database of 30 libraries in Slovakia - **EBSCO** information database (https://www.ebsco.com/) - **NISPEZ** (http://nispez.cvtisr.sk/) - The National Information System for Research and Development Support in Slovakia is a system focused on information support for research and development staff in Slovakia. - **ProQuest** Central (https://www.proquest.com/) - ProQuest's comprehensive production database, accessing articles from periodicals (11,000 titles), dailies (400 titles), company and industry profiles, market reports and dissertations (30 000)

	- **Springer Link** (https://link.springer.com/) - A full-text database that provides access to articles from the 1,660 titles of Springer scientific journals in science, technology and medicine. The full texts of the articles have been available since 1997. - **Web of Knowledge - Current Contents Connect** - 7 editions, contains complete bibliographic data from more than 8,000 world scientific journals. - **Web of Knowledge - Essential Science Indicators** - monitors more than 11,000 periodicals. - **Web of Knowledge - Web of Science** - **Web of Knowledge - Conference Proceedings Ebrary Academic Complete**
Charakteristika a rozsah dištančného vzdelávania uplatňovaná v študijnom programe s priradením k predmetom. Prístupy, manuály e-learningových portálov. Postupy pri prechode z prezenčného na dištančné vzdelávanie.	The university uses central information systems to implement modern forms of teaching process and managerial activities related to management and main processes: 1. Modular academic information system MAIS 2. Electronic education systems - EKP and Moodle, MS TEAMS 3. DAWINCI Library Information System 4. Virtual university 5. SOFIA financial information system 6. Identity Management System (Novell IDM) 7. Automated Person Identification System (SAIO) 8. Management Information System (ISSM) 9. University network systems and services Within the university data network, several systems and services are available to users, which are centrally managed on university servers: a) Wireless data network (wifi) services b) Web hosting services for the websites of the TU components c) University data archiving system d) MeetVideo and EVO video conferencing systems At the time of the pandemic, the university ensured a smooth transition to online education through Moodle and MS Teams. Subjects whose nature did not allow this transition were provided in blocks, respectively their implementation was postponed to the next teaching period.

Partneri vysokej školy pri zabezpečovaní vzdelávacích činností študijného programu a charakteristika ich participácie.	The main partner of the university in providing the 3rd degree of university study in the field of psychology is the external educational institution Institute of Experimental Psychology CSPV SAV, with which the university has a contract for the joint implementation of doctoral studies. Other partners are collaborating research institutes, such as the Faculty of Psychology of the Pan-European University, the University of Prešov, the Research Institute of Child Psychology and Pathopsychology, etc. These workplaces carry out joint research projects with the University of Trnava, in which doctoral students also participate with their research.
Charakteristika na možností sociálneho, športového, kultúrneho, duchovného a spoločenského vyžitia.	The university also creates conditions for its students for regular sports activities. **Sports activities**: football, volleyball, basketball, futsal, floorball, or swimming. Since 2004, University has been organizing Sports Days, the aim of which is to compete students and employees of individual parts of the university. Traditionally, there are competitions in basketball, volleyball and futsal for the traveling rector's cups of TU and table tennis tournaments for the master of the university. The best athletes from these competitions represent the university at the competition of universities of the Slovak Republic (univerziády), or occasional competitions of Slovak universities. **Dance and aerobic rings** An overview of the offered activities is published at: https://www.truni.sk/sportove-aktivity. **TU Student Council** There is also a student council at the university, which organizes various social, cultural and sports activities for students (https://www.facebook.com/studentska.rada.truni/). **Tutors at FF TU** Students of the first years of bachelor's study are assisted by tutors from the ranks of students from higher years http://ff.truni.sk/aktuality/poziadaj-o-pomoc-svojho-tutora **Student Support Center TU** The goal of CPŠ TU is free help and support. The center provides several types of advice: psychological counseling (https://www.truni.sk/psychologicke-poradenstvo), support for students with special needs, legal counseling, career counseling. More information can be found on the website: https://www.truni.sk/centrum-podpory-studentov **Psychological clinic of the Student Support Center TU** The psychological clinic at the Student Support Center TU started its activities on October 1, 2017 in the premises of the Peter Pázmaň Student Home. The psychological clinic provides counseling services, lectures, consultations and group programs for students focusing on personal development, communication skills, coping with difficult life situations (at school, in relationships, in the family environment), in solving personal problems, mental fragility, important decisions and life challenges. Psychological services are provided by the staff of the Department of Psychology FF TU. **Spiritual activities** Provided by the University Pastoral Center (https://upece.sk/).

	The possibilities and conditions of participation in mobilities are defined in the TU Rector's Directive No. 2/2020 on the implementation of the ERASMUS + program at TU: https://www.truni.sk/sites/default/files/zo/smernica_c.2_2020_o_realizacii_programu_erasmus.pdf http://ff.truni.sk/en/erasmus-0 http://ff.truni.sk/basic-information-eng The university became the holder of the ECTS and DS Label in 2016, and for this reason, students return all mobility credits recognized, either as a substitute for study program subjects, if there is an equivalent, or as credits for elective courses, which lays down the study regulations of the university: https://www.truni.sk/sites/default/files/rektor/studijny_poriadok_tu_final_web_1.pdf Students can also take advantage of programs offered by SAIA. https://www.saia.sk/ Direct access to the CEEPUS program (covered by SAIA) is also available at the Faculty of Arts and Philosophy of the University of Trnava. Updated information and contact information for the coordinator is available here: http://ff.truni.sk/ceepus-ff
Možnosti a podmienky účasti študentov študijného programu na mobilitách a stážach (s uvedením kontaktov), pokyny na prihlasovanie, pravidlá uznávania tohto vzdelávania.	

9. Požadované schopnosti a predpoklady uchádzača o štúdium študijného programu	
Požadované schopnosti a predpoklady potrebné na prijatie na štúdium.	Upon admission, the applicant is expected to have knowledge in the field of psychology, or related sciences at the master's degree level.
